Renz Justin Nguho

Generative AI Artist & Workflow Specialist

Davao City, Philippines | renznguho@gmail.com
ovi1.net | linkedin.com/in/renzovi1

PROFILE

AI content production and workflow specialist with experience across multiple creator profiles, alongside freelance character and commercial image work for clients through OVI1. Focus on repeatable production workflows, reference-guided imagery, model research and technical troubleshooting. Background in software QA and project coordination.

EXPERIENCE

AI Tech & Workflow Specialist | Contract

May 2026 - present | Remote
AI image and video production for an established digital creator account with 885K+ social media followers. Responsibilities include character consistency, custom LoRA training and workflow development, alongside AI tool research and technical troubleshooting. Work delivered as part of a production team.

Freelance AI Artist & Workflow Specialist | OVI1

Jan 2025 - present | Remote
Freelance work for multiple clients: character and commercial imagery, dataset preparation, model customisation and ComfyUI workflow development. Independent portfolio projects are listed separately below.

Customer Support & Social Media Moderator | Svelte (contract)

Jan 2024 - Jul 2025 | Remote
Email support, community moderation, issue documentation and technical escalation.

Project Manager / Software QA Tester | CreativeX

Sep 2022 - Aug 2024 | Remote
Project scheduling, deliverables, stakeholder coordination and software QA.

Data Entry, Chat Support & Content Moderator | CreativeX

Sep 2019 - Aug 2022 | Remote
Data accuracy, content review, moderation and user support.

SELECTED INDEPENDENT PROJECTS

VYPR Fuel. A 29-image fictional campaign: product shots, creator scenes, street comedy and racing. Concept direction, reference-guided generation, selection and a delivery sample.

Chad Flash & Nova Grande. Character consistency and photographic direction across poses, expressions and lighting, with documented references, prompts and visual QA.

Storybook library. Three complete illustrated digital books, reusable visual references, online readers and PDF editions. More work: style translation and ComfyUI workflow evidence.

TOOLS & SKILLS

ChatGPT/OpenAI image generation, Krea 2, MiniMax H3 and ComfyUI. Workflow adaptation, model integration and troubleshooting; dataset curation/captioning; LoRA training and model fine-tuning; image QA and production documentation.

RunPod: template-based ComfyUI setup and persistent network volumes. Exploring Qwen, SDXL, FLUX.2 [klein] 9B and Anima. Project pages identify the tools used for each piece.

EDUCATION

Business Administration / Management coursework, 2019-2021.
